

Leander ISD Elementary Schools Underperform Peers

STAAR test data is only one indicator of student learning. Nevertheless, there is no doubt that reading and math skills, as measured by STAAR results, are among the most important.

The following charts, pulled from the Texas Education Agency website, illustrate the problem.

It is incumbent on District Leadership to understand why the majority of Leander ISD elementary schools underperform their peers in these two critical areas.

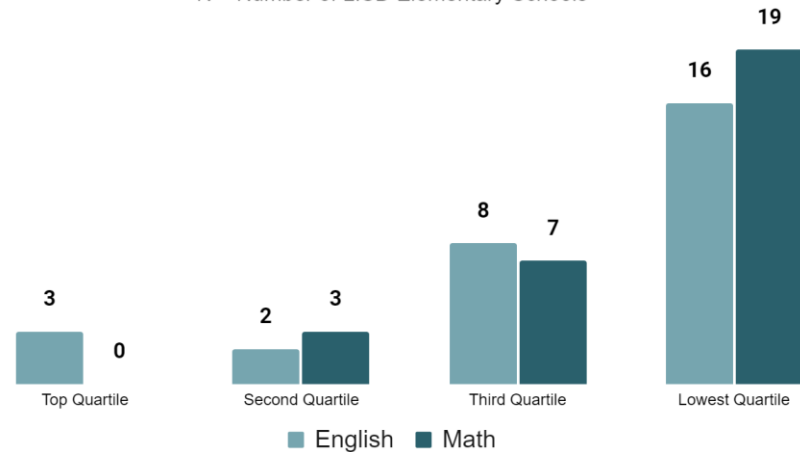

Over the next year, Texas Parents United hopes to collaborate with District Leaders to identify changes that can be made to improve student learning.

We are sharing this public data to bring attention to the problem and invite the LISD community to join us in our initiative to address this problem.

2022-2023 TEA STAAR Campus Compare Summary

Performance Quartile Relative to Comparable Schools

N = Number of LISD Elementary Schools

Data Source

The following charts from Texas Education Agency (TEA) were created using the TEA Analytical Tools website based on data from the 2022-2023 school year.

Each school is ranked in descending order by “Meets” relative to its peer group of 40 schools as defined by TEA.

40 Campus Compare:

As defined by TEA - 40 other campuses from anywhere in Texas that are most similar in grade levels served, size, the percentage of students who are economically disadvantaged, mobility rate, the percentage of emergent bilingual students/English learners, the percentage of students served by special education, and the percentage of students enrolled in an early college high school program.
